

4"x1" ring

How to make

- print this out in color or black ink and colour in the ears and the circles in the feet pink
- glue google eyes or diamantes in the center of the eye
- glue on a small pom pom nose
- cut 6 card rings, pre-printed or cover yours to match the table setting (we have a tutorial on how to make card stock out of the napkin tissue paper)
- glue the ring closed or use double sided tape
- glue the bunny in place either on side ways or straight up and down
- you can glue chenille pipe clears for trim on both edges, this looks really cute.
