

No cook finger paint

ingredients

- 2 cups corn flour
- food colouring
- 4.5 cups boiling water
- 1 cup cold water

video
tutorial

Directions

- boil the kettle for the hot water
- mix the cornflour with the cold water in a large steel bowl
- add 1 cup of boiling water at a time, continually stirring
- it will become soft and creamy like a thick custard would
- divide it into how ever many colours you want to make
- at this point you can put it straight into the paint storage jars
- add the food colouring and keep mixing it through
